

smart integraciones mag

Smart Integraciones Mag is the professional news outlet specialized in digital integration and convergence, aimed at Spanish-speaking professionals.

Available at **www.smartintegracionesmag.com**, it aims to inform all professional actors in the integrated digital universe: manufacturers, suppliers, distributors, installers, architects, consultancies, etc...

At **Smart Integraciones Mag** we treat, from the integration perspective, the news of the following sectors: Smart Building, Smart Cities, Smart Home, Security, Professional Audiovisual, Networks, Digital Signage,....

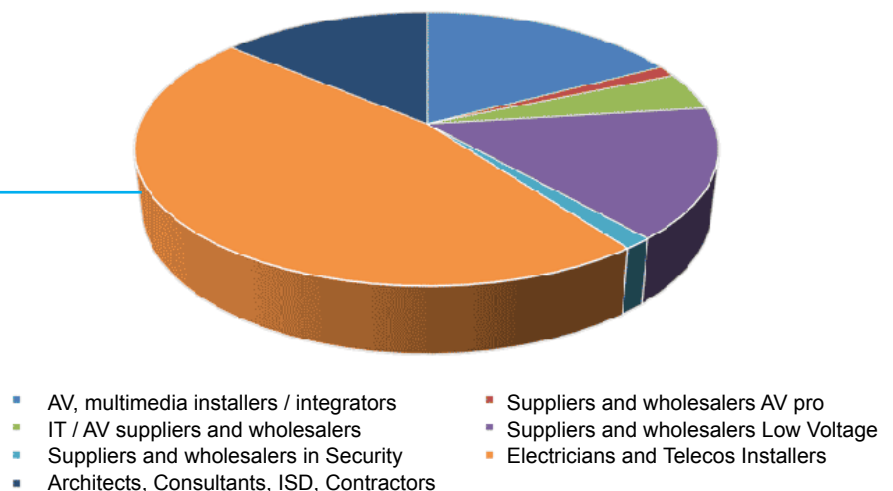

Our media is aimed at all those professionals with proposals, concerns and needs regarding the integration of digital systems. We will talk about products, people, achievements, strategies, training, presentations, and everything that may be useful for the integrator's day-to-day life and helps him find the best solutions to propose to his clients.

Our readers operate in the following sectors:

- Professional Audio / Video
- Security and Protection
- Smart Home & Building
- Networks and Infrastructures

It is important for them to be always informed of the products, solutions and services available in the market; the evolution of technologies and knowing the suppliers and following their offers, training and news. It is for them that we have created **Smart Integraciones Mag**, where we put at their disposal several information channels: Web, Newsletter, Social networks, ...

Our readers are mainly divided between the following professions:

2025
